Content Release Conditions in D2L

1. In D2L, select the course you intend to edit.

2. Select **Content** on the Navigation bar.

3. Within Content, click on the downward facing arrow and select **Edit Properties In-place**.
4. Then click on the option to **Add dates and restrictions**.

5. To create a release condition, click **Create**.
6. From the Condition Type dropdown box, select **Content Topic Visited** and then select the **Condition Details Topic**. Click **Create**.

7. After editing **Content Topic** and **Condition Details**, click **Update**.
You should now be able to add release conditions for content modules and materials within them.
