Using GradeMark to Assess Student Papers in D2L

1. In D2L, select the course you intend to edit.

2. Select Dropbox on the Navigation bar.

3. Select the Dropbox Folder in which you have enabled TurnItIn. Students must be allowed to view Originality Reports in order to see GradeMark feedback. Be sure to enable this option under the dropbox advanced options.
4. Click on the **Report Score** color indicator next to the plagiarism percentage.
5. Select the **GradeMark** button. You can leave comments, use QuickMarks, and leave audio feedback by clicking the blue comment box. There is a comment bank on the right side for commonly used feedback. Comments also include an explanation for students.

You can create your own QuickMarks, customized for you students. You can also select text to highlight specific portions. Extensive customizable feedback options can simplify grading.

Select **GradeMark** button

Select text and click **Comment** to highlight text associated with a comment

Explanation for Students appear here
6. Leave up to 3 minutes of audio feedback. Select the **Speech Bubble** and then click the **Microphone** icon to record. Click **Allow** and then **Close** to start recording.

GradeMark can streamline your grading time and feedback.
