1. POSTPONED: ASSISTING FACULTY INSTRUCTORS WHO TEACH DEAF STUDENTS

The "Assisting Faculty Instructors Who Teach Deaf Students", has been postponed from Sept. 23 until later in the semester. The new date will be announced in a future Tuesday Tips email and on the [ITLE Events](#) webpage, once it has been determined.

2. ONLINE AND HYBRID TEACHING RESOURCES

Teaching online or HyFlex, when thoughtfully planned, can be very engaging and effective across subjects and disciplines. Whether the content is taught synchronously (live) or asynchronously (on your own time), faculty members can present information to students, demonstrate processes, facilitate large or small group discussions, assess student learning and provide feedback on assignments and assessments. [ITLE has resources](#) to assist you in your planning for a short-term shift or a semester-long course.

3. ONLINE QUIZZES AND ASSIGNMENTS

Frequent low-stakes quizzes and assignments are one way to check that students are keeping current with online course materials.

Working with Question Banks

[Watch the Video](#)

Question banks should be created prior to making quizzes, as these question banks function as containers into which all quiz questions should be placed. After creating a question bank, the questions can be imported into one or more quizzes.

Creating a Quiz

[Watch the Video](#)

After constructing a question bank, an instructor can use those questions to create a quiz. Questions may be placed in question groups or left outside the question groups. After creating and publishing a quiz, it is also populated into the gradebook automatically.

Grading Essay Questions in a Quiz

Many quiz questions in Canvas can be auto-graded, such as multiple choice or true/false, but questions with subjective answers and grading criteria must be scored by the instructor or a TA. The SpeedGrader interface makes scoring these questions fast and easy.

Creating Assignments

[Watch the Video](#)

All graded work in a course is treated as an assignment. The Assignments tool can be used to create, manage and organize all Assignments as well as specify the submission type (online Dropbox submission, no submission, etc.). Points and grading options can be specified as well.

Advanced Assignment Options

Basic assignment details can be specified from the Assignments navigation tab, but more advanced options can be set such as group assignment, peer reviews, moderated grading, assigning specific groups or individuals and setting time/date restrictions.

Self-Paced Online Teaching Workshop

This self-paced online teaching workshop covers a variety of topics such as outcome-oriented course design, engaging online learners, creating an online activity and assessment plan and more. Whether you are new to online teaching or need a refresher, this course is designed to meet your needs in a flexible format. While working through modules in the workshop, participants will create an Online Learning Assessment Portfolio, which will be submitted to the instructor upon completion of the final module. After receiving your portfolio, the instructor will set up a time to discuss your experience in the workshop with a one-on-one video conference.
