TEACHING EFFECTIVELY IN A WORLD OF AI

AI tools can optimize tasks and save valuable time. ChatGPT can proactively identify repetitive tasks and improvements, further enhancing efficiency. Instructors can unlock new levels of productivity, focus on strategic work and benefit from a streamlined workflow. Try the following prompt approach to audit tasks in your day to find ways AI can assist time management.

PREPARING ONLINE INSTRUCTORS 2.0

This six-week fully online course is built upon the foundation of the prerequisite course Preparing Online Instructors. POI 2.0 is designed to help instructors deliver and facilitate quality online student learning experiences. Upon completion, participants will have the knowledge and skills necessary to facilitate quality student-centered learning while incorporating authentic learning in their online course activities.

ONLINE INSTRUCTOR CANVAS COMMUNITY

To learn more about teaching online and access this week's module, we invite all online/hybrid instructors to join ITLE's Online Instructor Tips and Tools Community. Each week, a new tip or tool will be released detailing resources designed to enrich the quality of online courses. This community will also provide a space for instructors to ask and answer questions concerning best practices in online instruction. Click the link below or scan the QR code with your phone's camera to join in on the discussion!
