## 2. AUTHENTIC LEARNING

Many of our Generation Z students long to make a difference for themselves and others. Recognizing this intrinsic need for students to see transformation can help identify the best type of assignments for online learning. This week's Online Instructor module investigates the pedagogical practice of authentic learning. Authentic learning and assignments ask students to apply their understanding in new situations. It inherently motivates students to deeply engage with the subject matter leading to more constructive and productive learning as they see the relevance of their learning.

## 3. ITLE'S ONLINE INSTRUCTORS LEARNING COMMUNITY

Each week, a new tip or tool will be released detailing resources designed to enrich the quality of online courses. This community will also provide a space for instructors to ask and answer questions concerning best practices in online instruction.
