TUESDAY TEACHING TIPS

HELPING STUDENTS DEVELOP HIGHER-ORDER THINKING SKILLS

Bloom's Taxonomy illustrates a hierarchy of cognitive processes and is often an underlying component of educational work. This taxonomy is a valuable resource that can help instructors align lectures, assignments and exams with course goals.

LEARNING MORE ABOUT CANVAS: DIFFERENTIATED ASSIGNMENTS

Unlock personalized learning with differentiated assignments in Canvas! Customize due dates, tasks and rigor to fit individual or group needs. Perfect for accommodating absences, skill levels or cross-listed courses, this feature fosters flexibility and student success.

[Learn More](#)

CREATIVE DISCUSSION TECHNIQUES FOR EVERY CLASS

Discussion boards don't have to be repetitive or boring! This guide offers dynamic techniques that bring creativity, interactivity, and real-world connections to online discussions. Whether it's a scavenger hunt, role-playing or creating multimedia mood boards, these ideas are adaptable across all disciplines and help students contribute uniquely. Explore strategies that encourage critical thinking, collaboration and meaningful engagement.
