**INSTITUTE FOR TEACHING
AND LEARNING EXCELLENCE**

Supporting faculty in the creation and development of high-impact learning opportunities

Start of a New Year

Early Career Faculty Support Program

ITLE has prepared a series of workshops and presentations to help new faculty. Sign up once and attend what you like. A reminder and attendance link will be sent for each event.

Canvas Webinars in Preparation for Fall 2020

ITLE is providing several Canvas-focused webinars to help faculty prepare for the coming semester. The content of these sessions will be useful for instructors who are using online, face-to-face, hybrid or flexible course delivery models.

Aug. 19, 9 a.m. – Deep Dive into Canvas Studio

Aug. 26, 9 a.m. – Using Quizzes for Student Assessment

Sept. 2, 9 a.m. – Engaging Students with Discussion Board in Canvas

Sept. 9, 9 a.m. – Using Canvas Modules and Pages for Effective Content Delivery

Sept. 16, 9 a.m. – Deep Dive into Canvas Studio

Sept. 23, 9 a.m. – Engaging Students in Online Courses

Sept 30, 9 a.m. – Using Quizzes for Student Assessment in Canvas

*A *Microsoft Teams* webinar link will be emailed to each registered participant prior to the webinar.

Self-Paced Online Teaching Workshop

This self-paced online teaching workshop covers a variety of topics such as outcome-oriented course design, engaging online learners, creating an online activity and assessment plan, and more. Whether you are new to online teaching or need a refresher,

this course is designed to meet your needs in a flexible format. While working through modules in the workshop, participants will create an Online Learning Assessment Portfolio which will be submitted to the instructor upon completion of the final Module. After receiving your Portfolio, the Instructor will set up a time to discuss your experience in the Workshop with a one-on-one video conference.

To signup, contact Elaine Johns at itleevents@okstate.edu. You will be asked to provide your CWID so we can add you to the course.

Canvas - Importing from Another Canvas Course

Content can be imported into a Canvas directly from other Canvas courses, which is very useful when re-using content from one semester to another. The same process can be used when copying content from a Sandbox or Test environment into an actual course..

More Canvas Tips

Live-Streaming from the Classroom

With the installation of Huddle / Avaya and Owl cameras in general usage classrooms across campus, it is possible to livestream classroom instruction. This will help in de-densifying classrooms and provide a means for students to keep up with their studies they are not able to attend in person.

There are two supported live-streaming technologies on campus, *Microsoft Teams*, which

is part of Office 365 suite, and *Conferences* in Canvas. The exact process for live-streaming from the classroom will depend on which streaming technology (Teams or Conferences) an instructor chooses and which type of camera (Huddle / Avaya or Owl) is in the classroom. The videos below walk through how to live-stream using each possible combination.

Live-Streaming with Microsoft Teams

Another Option: Zoom

Zoom is *not* a campus-supported web-conferencing technology, however it is a popular choice that has been adopted by some departments and faculty. The tutorial below was created to assist those planning to live-stream classes using Zoom.

FAST START at the OSU Library

The OSU Library will be offering the FAST START series of workshops intended to provide an introduction to research support here on campus and help faculty and students locate the resources and tools they need to launch their programs and projects. The workshops will be offered during the first and last full weeks of August. Participants will need to register for the workshops that they are interested in. Each workshop will be one hour in length and will be taught online. Zoom links will be provided with confirmation of registration.

Please see <https://info.library.okstate.edu/faststart/workshopseries> for registration links and more details. Please note that registrations may open three weeks prior to the session.

Contact Dr. Kay Bjornen (kay.bjornen@okstate.edu) for questions regarding FAST START..

Engage Your Students using a Response System System

iClicker has been adopted as the campus-wide student response system. Students can use iClicker through an app on their Smart phone/tablet or by purchasing a remote device. Whether students are in the same classroom or in another location, faculty can use iClicker app to take attendance, check student comprehension and engagement during instruction, and assess learning through adhoc or scheduled short quizzes. Faculty who are using a

MacMillan textbook can bundle the iClicker app for just \$5.00. Training to use iClicker will be available in August. Contact itle@okstate.edu if you have questions about iClicker.

Shifting to Online Teaching

With a shift to teaching a course online, instructors need a plan to produce high-quality instruction. To accomplish this, it is helpful to think about key elements of learning as you prepare. For more information visit the [Teach Online Effectively](#) webpage.

Need Help with your Course Design?

As you begin creating your upcoming courses, remember that ITLE Teaching Support Specialists are happy to assist. Although we are not in our offices every day, we are still available to help with all aspects of online teaching. Contact us at kdickey@okstate.edu, gina.morris@okstate.edu, or simon.ringsmuth@okstate.edu.

Have Questions About Teaching Online?

Contact ITLE for assistance with your online teaching questions.

Phone: (405) 744-1000

Email: canvas@okstate.edu

ITLE Faculty Teaching Fellows

ITLE supports effective teaching across the OSU campus. Faculty Teaching Fellows are available to provide course observations and offer advice on using high-impact pedagogies. The Faculty Teaching Fellows can be reached by their contact information listed below.
