3. [Working with Grades in Canvas](#)
4. [iClicker Student Response System](#)

1. 2021 TEACHING WITH TECHNOLOGY CONFERENCE

Learn how to use educational technologies to teach effectively and engage students in a variety of settings, from online to hybrid to traditional face-to-face. Hear from instructors who have successfully implemented technology-based solutions in their classes to help students succeed.

Presentation proposals are now being accepted: [Submit Proposal](#)

June 23, 8:30 a.m.-12 p.m. online

2. OSU FACULTY READS — SPRING 2021

Diversity Edition*

This semester, we are anchoring our conversations in several titles of young adult literature. These works will be complemented with articles and resources about inclusive teaching practices. Each session will cover different

works as noted below.

April 19 Indian No More & We Are Not From Here

* Faculty will supply their own copy of the book.

3. WORKING WITH GRADES IN CANVAS

Canvas provides several options for grading exams, quizzes and assignments.

Creating a Grade Item

[Watch the Video](#)

The Canvas gradebook is created dynamically as various graded items (quizzes, assignments, discussions, etc.) are created elsewhere in a course. This means that instructors do not have to manually manage gradebook items separately from the actual assignments that are being graded.

Weighting Grades

[Watch the Video](#)

Weighted grades in Canvas can be used to assign grades based on how much percentage points a grade category is worth (i.e., weekly quizzes worth 10% of final grade) This can allow for a great deal of flexibility for instructors who do not want to rely on a strict points-only grading system.

Grading with SpeedGrader

[Watch the Video](#)

SpeedGrader is the name Canvas uses for its grading interface, and it is replete with powerful features that help streamline an instructor's grading workflow. This video covers some of the basic elements of SpeedGrader.

Viewing Gradebook History

[Watch the Video](#)

The gradebook history option allows instructors to see all graded works that have been entered according to the time and date they were entered.

4. iCLICKER STUDENT RESPONSE SYSTEM

As you are planning your summer and fall 2021 book orders and are considering adopting a student response system, please be aware that iClicker was selected as the campus student response system in spring 2020. iClicker can be used to take attendance, check for student understanding during instruction and assess student learning after instruction. iClicker has both a physical clicker and an app (iClicker Reef) that can be used with a smart device (smart phone, tablet, laptop). Our institutional contract reduces the cost to students significantly; students using the iClicker Reef app on a smart device will pay only \$3 a semester to use in as many courses as needed. Students who use the iClicker device will pay significantly more, so I would urge you to allow students to use their mobile devices with the Reef app in your classes.

With the institutional license, students will be able to set up the iClicker Reef app without a link or code and their Bursar accounts will be billed after the second week of the semester. Information about iClicker is available on the [ITLE website](#) and faculty training will be provided later in this semester and through the first of the fall semester. iClicker faculty

workshops will be announced in ITLE's Teaching Tips e-newsletter that is distributed every Tuesday and will be posted on the ITLE [Events page](#).

More Canvas Tips

Self-Paced Online Teaching Workshop

This self-paced online teaching workshop covers a variety of topics such as outcome-oriented course design, engaging online learners, creating an online activity and assessment plan and more. Whether you are new to online teaching or need a refresher, this course is designed to meet your needs in a flexible format. While working through modules in the workshop, participants will create an Online Learning Assessment Portfolio, which will be submitted to the instructor upon completion of the final module. After receiving your portfolio, the instructor will set up a time to discuss your experience in the workshop with a one-on-one video conference.

Need Help with Your Course Design?

As you begin creating your upcoming courses, remember that ITLE teaching support specialists are happy to assist. Although we are not in our offices every day, we are still available to help with all aspects of online teaching. Contact us at kdickey@okstate.edu, gina.morris@okstate.edu, or simon.ringsmuth@okstate.edu.

Have Questions About Teaching Online?

Contact ITLE for assistance with your online teaching questions.

Phone: (405) 744-1000

Email: canvas@okstate.edu

Shifting to Online Teaching

With a shift to teaching a course online, instructors need a plan to produce high-quality instruction. To accomplish this, it is helpful to think about key elements of learning as you prepare. For more information visit the [Teach Online Effectively](#) webpage.
