3. ICLICKER: OSU'S STUDENT RESPONSE SYSTEM

If you plan to use iClicker this semester to take attendance and/or engage students during instruction, please have your students set up their iClicker account through their iClicker Student app. They just need to download the app, enter Oklahoma State University Main Campus* as their institution and activate an account using their OKEY. ITLE will post the \$3 per semester subscription cost to the student's Bursar account at the end of the second week of the semester.

Faculty and students can learn more about using iClicker's at <https://itle.okstate.edu/iclicker.html>. In addition, you can request other assistance from ITLE by email itle@okstate.edu or 405/744-1000.

* Students in the College of Veterinary Medicine enter Oklahoma State - Coll of Vet Med instead.

4. COMMON CANVAS QUESTIONS

Below is a list of five useful tutorial videos answering five commonly asked questions about Canvas.

How Do I Import Materials from Past Versions of a Course?

[Watch the Video](#)

Content can be imported into a Canvas directly from other Canvas courses, which is very useful when re-using content from one semester to another. The same process can be used when copying content from a Sandbox or Test environment into an actual course.

How Do I Add a TA to the Course?

[Watch the Video](#)

Instructors can use the People option in a course navigation bar to add a TA to a class.

How Do I Get a List of Student Email Addresses?

[Watch the Video](#)

Canvas lets instructors use the New Analytics tool to get a .CSV file which contains student emails as well as a list of students sortable by Last Name.

How Do I Add a Custom Dashboard Image?

[Watch the Video](#)

Canvas lets instructors customize the dashboard images of courses by using header images. These can be a useful way of distinguishing courses from each other and providing visual cues as to the type of content contained within a course.

How Can I See What My Students See?

[Watch the Video](#)

Student view can be used as a way for instructors to peek at their courses through the eyes of a student, which can help pin down problems that students are reporting. This video uses the example of two discussion board threads that are missing for

students, with the instructor using student view to get to the bottom of the issue.

More Canvas Tips

5. COMBINE COURSE SECTIONS IN CANVAS

Course sections within Canvas for Summer & Fall 2021 can be combined upon request. To request a combination of two or more course sections, email canvas@okstate.edu with the names of the courses as they currently appear in Canvas including the five-digit CRN code.

Example:

Please combine the courses below.

ABCD-1234-12345

ABCD-1234-12346

Please be aware that only the materials, submissions, etc. from one section can be preserved during the combining process. Because of this, it is not recommended to combine sections once a semester has begun.

6. ONLINE AND HYBRID TEACHING RESOURCES

Teaching online or HyFlex, when thoughtfully planned, can be very engaging and effective across subjects and disciplines. Whether the content is taught synchronously (live) or asynchronously (on your own time), faculty members can present information to students, demonstrate processes, facilitate large or small group discussions, assess student learning and provide feedback on assignments and assessments.
